| <b>Chemtrec International</b>      | : (703) 527 - 3887   |
| <b>Product use</b>                 | : self leveling concrete joint sealer<br>sealer                    |

#### 2. Hazards identification

##### Emergency overview

|  |  |
|--|--|
| <b>Physical state</b>                          | : Liquid. [Paste.]   |
| <b>Color</b>                                   | : Gray.  |
| <b>Odor</b>                                    | : Mild.  |
| <b>Signal word</b>                             | : WARNING!   |
| <b>Hazard statements</b>                       | : CAUSES RESPIRATORY TRACT IRRITATION. MAY CAUSE EYE AND SKIN IRRITATION.  |
| <b>Precautionary measures</b>                  | : Use only with adequate ventilation. Avoid contact with eyes, skin and clothing. Keep container tightly closed. Wash thoroughly after handling. |
| <b>OSHA/HCS status</b>                         | : This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200).  |
| <b>Routes of entry</b>                         | : Dermal contact. Eye contact. Inhalation. Ingestion.  |
| <b><u>Potential acute health effects</u></b>   |  |
| <b>Inhalation</b>                              | : Irritating to respiratory system.  |
| <b>Ingestion</b>                               | : No known significant effects or critical hazards.  |
| <b>Skin</b>                                    | : Slightly irritating to the skin. Prolonged or repeated contact can defat the skin and lead to irritation, cracking and/or dermatitis.          |
| <b>Eyes</b>                                    | : This product may irritate eyes upon contact.   |
| <b><u>Potential chronic health effects</u></b> |  |
| <b>Chronic effects</b>                         | : No known significant effects or critical hazards.  |
| <b>Carcinogenicity</b>                         | : Contains crystalline silica, which may cause lung disease and/or cancer.   |
| <b>Mutagenicity</b>                            | : No known significant effects or critical hazards.  |
| <b>Teratogenicity</b>                          | : No known significant effects or critical hazards.  |
| <b>Developmental effects</b>                   | : No known significant effects or critical hazards.<br>No known significant effects or critical hazards.   |

## 2. Hazards identification

**Target organs** : May cause damage to the following organs: liver, skin, eyes.

### Over-exposure signs/symptoms

**Inhalation** : Adverse symptoms may include the following:  
respiratory tract irritation  
coughing

**Ingestion** : No specific data.

**Skin** : Adverse symptoms may include the following:  
irritation  
redness

**Eyes** : Adverse symptoms may include the following:  
irritation  
watering  
redness

**Medical conditions aggravated by over-exposure** : Eye and skin inflammation .

See toxicological information (Section 11)

## 3. Composition/information on ingredients

There are no ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

## 4. First aid measures

**Eye contact** : Check for and remove any contact lenses. Immediately flush eyes with plenty of water for at least 15 minutes, occasionally lifting the upper and lower eyelids. Get medical attention immediately.

**Skin contact** : In case of contact, immediately flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Wash clothing before reuse. Clean shoes thoroughly before reuse. Get medical attention immediately.

**Inhalation** : Move exposed person to fresh air. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. Loosen tight clothing such as a collar, tie, belt or waistband. Get medical attention immediately.

**Ingestion** : Wash out mouth with water. Do not induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. Get medical attention immediately.

**Protection of first-aiders** : No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation.

**Notes to physician** : No specific treatment. Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.

## 5. Fire-fighting measures

**Flammability of the product** : In a fire or if heated, a pressure increase will occur and the container may burst.

### Extinguishing media

**Suitable** : In case of fire, use water spray (fog), foam, dry chemical or CO<sub>2</sub>.

**Not suitable** : None known.

**Special exposure hazards** : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.

**Special protective equipment for fire-fighters** : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

## **6. Accidental release measures**

- Personal precautions** : No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment (see Section 8).
- Environmental precautions** : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).
- Small spill** : Stop leak if without risk. Move containers from spill area. Dispose of via a licensed waste disposal contractor. Absorb with an inert material.
- Large spill** : Stop leak if without risk. Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see section 1 for emergency contact information and section 13 for waste disposal.

## **7. Handling and storage**

- Handling** : Put on appropriate personal protective equipment (see Section 8). Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Do not ingest. Avoid contact with eyes, skin and clothing. Avoid breathing vapor or mist. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.
- Storage** : Do not store above the following temperature: 26.667°C (80°F). Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

## **8. Exposure controls/personal protection**

### Canada

#### Occupational exposure limits

No exposure limit value known.

### Mexico

#### Occupational exposure limits

No exposure limit value known.

### **Consult local authorities for acceptable exposure limits.**

- Recommended monitoring procedures** : If this product contains ingredients with exposure limits, personal, workplace atmosphere or biological monitoring may be required to determine the effectiveness of the ventilation or other control measures and/or the necessity to use respiratory protective equipment.
- Engineering measures** : Use only with adequate ventilation. If user operations generate dust, fumes, gas, vapor or mist, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits.
- Hygiene measures** : Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

## 8. Exposure controls/personal protection

### Personal protection

- |  |   |
|--|---|
| <b>Respiratory</b>                     | : Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. |
| <b>Hands</b>                           | : Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.   |
| <b>Eyes</b>                            | : Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists or dusts.  |
| <b>Skin</b>                            | : Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.   |
| <b>Environmental exposure controls</b> | : Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation.   |

## 9. Physical and chemical properties

- |   |   |
|---|---|
| <b>Physical state</b>                         | : Liquid. [Paste.]  |
| <b>Flash point</b>                            | : Closed cup: >93.333°C (>200°F)  |
| <b>Color</b>                                  | : Gray.   |
| <b>Odor</b>                                   | : Mild.   |
| <b>Relative density</b>                       | : 1.35 to 1.45  |
| <b>VOC (less water, less exempt solvents)</b> | : 9 g/l   |
| <b>Solubility</b>                             | : Very slightly soluble in the following materials: cold water and hot water. |

## 10. Stability and reactivity

- |   |  |
|---|--|
| <b>Chemical stability</b>                 | : The product is stable.   |
| <b>Conditions to avoid</b>                | : Avoid temperatures above 49C (120F).   |
| <b>Incompatible materials</b>             | : No specific data.  |
| <b>Hazardous decomposition products</b>   | : carbon oxides. Formaldehyde. Metal oxide. nitrogen oxides .  |
| <b>Possibility of hazardous reactions</b> | : Under normal conditions of storage and use, hazardous reactions will not occur.  |
| <b>Hazardous polymerization</b>           | : Under normal conditions of storage and use, hazardous polymerization will not occur.   |
| <b>Incompatibility</b>                    | : Reactive or incompatible with the following materials: oxidizing materials and acids.<br>Slightly reactive or incompatible with the following materials: moisture. |

## 11. Toxicological information

### United States

#### Acute toxicity

No known significant effects or critical hazards.

#### Chronic toxicity

No known significant effects or critical hazards.

#### Irritation/Corrosion

#### Conclusion/Summary

- |                   |  |
|-------------------|--|
| <b>Skin</b>       | : Prolonged or repeated contact can defat the skin and lead to irritation, cracking and/or dermatitis. |
| <b>Eyes</b>       | : This product may irritate eyes upon contact.   |
| <b>Sensitizer</b> |  |

## **11. Toxicological information**

No known significant effects or critical hazards.

### **Carcinogenicity**

**Conclusion/Summary** : Contains crystalline silica, which may cause lung disease and/or cancer.

### **Mutagenicity**

No known significant effects or critical hazards.

### **Teratogenicity**

No known significant effects or critical hazards.

### **Reproductive toxicity**

No known significant effects or critical hazards.

### **Canada**

#### **Acute toxicity**

No known significant effects or critical hazards.

#### **Chronic toxicity**

No known significant effects or critical hazards.

#### **Irritation/Corrosion**

##### **Conclusion/Summary**

**Skin** : Prolonged or repeated contact can defat the skin and lead to irritation, cracking and/or dermatitis.

**Eyes** : This product may irritate eyes upon contact.

#### **Sensitizer**

No known significant effects or critical hazards.

### **Carcinogenicity**

**Conclusion/Summary** : Contains crystalline silica, which may cause lung disease and/or cancer.

### **Mutagenicity**

No known significant effects or critical hazards.

### **Teratogenicity**

No known significant effects or critical hazards.

### **Reproductive toxicity**

No known significant effects or critical hazards.

### **Mexico**

#### **Acute toxicity**

No known significant effects or critical hazards.

#### **Chronic toxicity**

No known significant effects or critical hazards.

#### **Irritation/Corrosion**

##### **Conclusion/Summary**

**Skin** : Prolonged or repeated contact can defat the skin and lead to irritation, cracking and/or dermatitis.

**Eyes** : This product may irritate eyes upon contact.

#### **Sensitizer**

No known significant effects or critical hazards.

### **Carcinogenicity**

**Conclusion/Summary** : Contains crystalline silica, which may cause lung disease and/or cancer.

**Mutagenicity**

No known significant effects or critical hazards.

**Teratogenicity**

No known significant effects or critical hazards.

**Reproductive toxicity**

No known significant effects or critical hazards.

## 12. Ecological information

**Ecotoxicity** : No known significant effects or critical hazards.

**United States**

**Aquatic ecotoxicity**

No known significant effects or critical hazards.

**Persistence/degradability**

No known significant effects or critical hazards.

**Canada**

**Aquatic ecotoxicity**

No known significant effects or critical hazards.

**Persistence/degradability**

No known significant effects or critical hazards.

**Mexico**

**Aquatic ecotoxicity**

No known significant effects or critical hazards.

**Persistence/degradability**

No known significant effects or critical hazards.

## 13. Disposal considerations

**Waste disposal** : The generation of waste should be avoided or minimized wherever possible. Significant quantities of waste product residues should not be disposed of via the foul sewer but processed in a suitable effluent treatment plant. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Disposal should be in accordance with applicable regional, national and local laws and regulations.

Refer to Section 7: HANDLING AND STORAGE and Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION for additional handling information and protection of employees.

## 14. Transport information

## 15. Regulatory information

### United States

HCS Classification : Irritating material

U.S. Federal regulations :

TSCA 8(a) IUR Exempt/Partial exemption: Not determined

United States inventory (TSCA 8b): All components are listed or exempted.

SARA 302/304/311/312 extremely hazardous substances: No products were found.

SARA 302/304 emergency planning and notification: No products were found.

SARA 302/304/311/312 hazardous chemicals: No products were found.

SARA 311/312 MSDS distribution - chemical inventory - hazard identification:

Titebond Self-Leveling Concrete Joint Sealer-Gray: Immediate (acute) health hazard

Clean Air Act Section 112(b) Hazardous Air Pollutants (HAPs) : Not listed

Clean Air Act Section 602 Class I Substances : Not listed

Clean Air Act Section 602 Class II Substances : Not listed

DEA List I Chemicals (Precursor Chemicals) : Not listed

DEA List II Chemicals (Essential Chemicals) : Not listed

### State regulations

Massachusetts : 13463-67-7 &lt;10% Titanium Dioxide

New York : 13463-67-7 &lt;10% Titanium Dioxide

New Jersey : 13463-67-7 &lt;10% Titanium Dioxide

Pennsylvania : 13463-67-7 &lt;10% Titanium Dioxide

### California Prop. 65

Contains crystalline silica, which may cause lung disease and/or cancer.

### Canada

WHMIS (Canada) : Class D-2B: Material causing other toxic effects (Toxic).

### Canadian lists

Canadian NPRI : None of the components are listed.

CEPA Toxic substances : None of the components are listed.

Canada inventory : Not determined.

This product has been classified in accordance with the hazard criteria of the Controlled Products Regulations and the MSDS contains all the information required by the Controlled Products Regulations.

## 15. Regulatory information

### Mexico

Classification :

### International regulations

**International lists** :

- Australia inventory (AICS):** Not determined.
- China inventory (IECSC):** Not determined.
- Japan inventory:** Not determined.
- Korea inventory:** Not determined.
- New Zealand Inventory of Chemicals (NZIoC):** Not determined.
- Philippines inventory (PICCS):** Not determined.

**Chemical Weapons Convention List Schedule I Chemicals** : Not listed

**Chemical Weapons Convention List Schedule II Chemicals** : Not listed

**Chemical Weapons Convention List Schedule III Chemicals** : Not listed

## 16. Other information

**Label requirements** : CAUSES RESPIRATORY TRACT IRRITATION. MAY CAUSE EYE AND SKIN IRRITATION.

**Hazardous Material Information System (U.S.A.)** :

|                  |   |
|------------------|---|
| Health           | 2 |
| Flammability     | 1 |
| Physical hazards | 0 |
|                  |   |

Caution: HMIS® ratings are based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks. Although HMIS® ratings are not required on MSDSs under 29 CFR 1910.1200, the preparer may choose to provide them. HMIS® ratings are to be used with a fully implemented HMIS® program. HMIS® is a registered mark of the National Paint & Coatings Association (NPCA). HMIS® materials may be purchased exclusively from J. J. Keller (800) 327-6868.

The customer is responsible for determining the PPE code for this material.
